INTRODUCTION

Classification of Pesticides

Ontario's *Pesticides Act and Regulation 914*, administered by the Ministry of Environment and Energy, require that pesticide products sold and used in Ontario be firstly registered under the federal *Pest Control Products Act*, and then classified into one of the schedules of the Ontario Regulation. This document lists all pesticide products which are currently classified in Ontario, including fertilizers containing pesticides.

Definitions

"Reg'n No." is the unique identifying number assigned to each pesticide product under the *Pest Control Products Act (Canada)*. It is always found on the label of the pesticide product, and may often be referenced as the PCP Number. In the case of the fertilizer-pesticide combinations, the registration number is that number assigned under the *Fertilizers Act (Canada)*.

"Sch No." refers to the schedule numbers, 1 through 6, into which pesticide products are categorized (under Ontario Regulation 914) according to their persistence, toxicity, method of handling or ways in which they can be sold. Refer to the following table for details on the schedules.

"Regt Code" and "Agnt Code" refer to the respective codes assigned to each each company which register pesticides in Canada, or the company acting as the Canadian agent for the distribution of a particular pesticide. The company names and addresses for each code are listed in detail in Sections 1 and 2 of this publication.

"Product Name" indicates the trade name of the product as found on the product label, although in some cases this may vary. Many of the product names are registered trade marks and should be treated as such.

The user is encouraged to read the product label in its entirety before purchase and/or use of any pesticide product. As required under Section 22(2) of Regulation 914, it is mandatory to use a pesticide only in accordance with the label instructions. Any divergences from the label recommendations in such aspects as target pest(s), use areas, application procedures, safety precautions, etc., are considered as potentially prosecutable offences under Ontario law.

CRITERIA FOR ONTARIO CLASSIFICATION OF PESTICIDE PRODUCTS

Schedule*	Pesticide Category	Criteria	Sales Outlet	Used By
1	Restricted	Extremely Toxic, Very Highly Persistent	Licensed, Record of Sale	Licensed Applicator, Certified Agriculturist, under Permit approval
5	Agriculture	Extremely Toxic, Very Highly Persistent	Licensed, Record of Sale	Same as Schedule 1 except no permit if Certified Agriculturist or Licensed Applicator
2	Pest Control Industry and Agriculture	Very Toxic, Highly Persistent	Licensed, Record of Sale	Licensed Applicator or Certified Agriculturist
3	Consumer, Pest Control Industry and Agriculture	Moderately Toxic, Moderately Persistent	Licensed	Homeowner, Licensed Applicator and Agriculturist
4	Consumer, Pest Control Industry and Agriculture	Slightly Toxic	No licence requirement	Homeowner, Licensed Applicator and Agriculturist
6	Consumer, Pest Control Industry, Commercial and Agriculture	Slightly Toxic	Licensed (same as Schedule 4 except larger container)	Homeowner, Licensed Applicator and Agriculturist

* When an * appears after a schedule 4 or 6 product in the publication "Pesticide Products Classified in Ontario", this means that the product is packaged in two different container sizes and appears in both schedules.
